

# ANTS CAN

Ants can march  
On six small feet  
Up a wall  
And down the street.  
Ants can.

Ants can dig  
Down and down  
To make a nest  
Inside the ground.  
Ants can.

Ants can smell  
Where any ant goes.  
They use their feelers  
For a nose.  
Ants can.

Leafcutter ants  
cut and carry  
leaves back to  
their nests.

Some other bugs  
Can live alone  
And call a leaf or  
Twig a home.

**ANTS CAN'T.**
